

Capstan Rollers

*..High performance
for Otari/Mitsubishi
Analog & Digital
tape recorders.*

Ultra High Speed
Black/REDS™

Black/REDS capstan and idler rollers are designed to take full advantage of the higher wind speeds available on the newest machines from Otari and Mitsubishi while providing a subdued color option for our customers.

Black/REDS are made of the very same elastomer as our newest T/REDS, and both products are now a more supple compound. This new product exhibits a significantly higher kinetic coefficient of friction than previous generation REDS and will handle tape well at very high wind speeds thereby eliminating many of the problems associated with the "slippery" and difficult to handle high output tapes such as Ampex/Quantegy 499.

Black/REDS may be used with excellent results on all existing MTR-90's but were originally intended for use on the MTR-100, DTR-900 Mk II (1") and those MTR-90 Mk III's which are running 499/996 and running fast. They are in-stock

for all machines which use the 2" Standard & Universal rollers and the 1" digital format.

Rest assured that Black/REDS exhibit all of the positive characteristics of the RED material with respect to chemical resistance and mechanical performance. *(No more soggy rollers !!)* Our new softer durometer compound actually has better numbers in the "Tabor Abrasion Test". This standardized durability test for elastomers should translate to longer roller life under actual use.

Included free with every set of Black/REDS is a pair of our "Improved Swing-Arm Return Springs" and a sample of Head, 'Red & Roll Cleaner™. This cleaner is the right cleaner for all REDS. A fast evaporating, no CFC, no-flash-point cleaner, H,R & R is highly recommended as a general purpose professional cleaner for all audio & video heads, guides, and rollers. *Black/REDS hide dirt but please keep them clean!*

Available 2" Standard, 2" Universal & 1" Digital formats.
Retail in the U.S. is \$575.00/set for 2" rollers and \$675.00/set for 1" rollers.
The standard warranty is 3 months then prorated up to 18 months.
Unconditional 30 day money back guarantee.
Please specify Black/REDS™-S, Black/REDS™-U or Black/REDS™-D (1")
