

99.8% Aluminum Oxide, hard-fired

Ceramic Capstan Sleeve for all Studer Capstan Motors

Some conversions past & present include:

Studer A-827 D.C. Capstan Motor

A super hard, no-wear capstan surface provides tape path stability, and efficient tape drive for life.

Permanently applied and precision ground with diamond tooling to insure low wow & flutter.

\$650.00 - \$690.00* (1/4"-2") includes motor rebuild, ceramic shaft and full one year warranty.

*Any required replacement parts are additional.
